

MOHAMMED AHMED

Seoul, South Korea | +82 10-3026-0308 | mahmed0x1@gmail.com | www.0x7md.com | linkedin.com/in/mahmed0x1

PROFESSIONAL SUMMARY

Computer Science graduate from Yonsei University with experience in full-stack software development across early-stage startups and applied projects, spanning Python, JavaScript, Rust, C++, and modern web technologies. Maintains an active interest in geopolitics and global affairs alongside engineering work.

EDUCATION

Yonsei University

March 2022 - February 2026

Bachelor of Computer Science, College of AI | GPA: 3.13 | Seoul, South Korea

- Relevant coursework: Data Structures & Algorithms, Artificial Intelligence, Database Systems, Operating Systems, Computer Vision, Computer Networks, Information Security

EXPERIENCE

Full-Stack Engineer

July 2024 - November 2024

Archflow | Seoul, South Korea (Hybrid)

- Built the front end of an AI-powered architectural floor plan design platform using Next.js
- Architected reusable, type-safe front-end components in TypeScript to improve codebase efficiency and modularity for future development
- Engineered custom OpenStudio simulation functions in Python to model and analyze HVAC system performance across a range of architectural design scenarios

Software Developer (Freelance)

March 2020 - Present

Self-Employed | Remote

- Designed and built full-scale websites and web applications collectively serving thousands of users across client projects
- Engineered web scraping pipelines in Python to collect and structure data for client-facing products and internal tooling
- Designed and implemented backend APIs using Python, SQL and NoSQL databases, and GraphQL
- Built cross-platform mobile applications with React Native and Flutter, prioritizing performance and user experience
- Deployed and maintained production web servers on AWS, handling configuration, monitoring, and testing

LEADERSHIP EXPERIENCE

Co-Founder & Branding Lead

August 2023 - June 2024

Yonsei African Students Association | Seoul, South Korea

- Co-founded the association and organized Yonsei Africa Week, a fall-semester celebration introducing African culture to the Yonsei community
- Led branding and visual identity for the organization, hiring and directing a graphic designer to craft a visual identity reflecting the spirit of Africa
- Invited and coordinated African embassy personnel as guest speakers to engage students in cultural and diplomatic dialogue

AWARDS & PUBLICATIONS

- Global Korea Scholarship (GKS) recipient, 2021
- Yonsei University Academic Excellence Award – Fall 2022
- Yonsei University College of AI Merit-Based Grant – Spring 2024
- "[I Have Watched the Catastrophe of My Country Be Reduced to Nothing](#)," *The New York Times*, April 2026

COMMUNITY INVOLVEMENT

- Volunteer, Seodaemun-gu Multicultural Family Support Center (서대문구 다문화가족), 2 years – participate in discussions on policies to improve the lives of foreign residents in Korea

SKILLS

- Programming Languages/Frameworks: Python, Rust, C++, TypeScript, JavaScript, React, Next.js, GraphQL
- AI/ML: LLMs, natural language processing, generative AI, applied research
- Tools/Platforms: AWS (EC2, S3, Lambda, RDS, SageMaker), Linux, bash scripting, Git, CI/CD, cybersecurity
- Language Proficiency: Arabic (native), English (C2), Korean (TOPIK 6)
